PRIMATES A JOURNAL OF PRIMATOLOGY

FOUNDED 1957

PRIMATES is an international journal of primatology, whose general object is to provide facilities for the elucidation of the entire aspect of primates in connection with man. It publishes original papers that contribute to the development of the scientific study of primates and its scope embraces work in all fields of investigation, such as morphology, physiology, psychology, behavior, ecology, sociology, systematics, evolution, laboratory primate medicine, etc. In addition to original papers, brief notes, research reports and review articles are included.

PRIMATES is published quarterly, and four numbers form one volume.

Persons who wish to contribute are advised to study the *Information for Contributors* printed inside the back cover and to follow the requested procedure carefully.
